## Term of Reference

---

*A report submitted in fulfilment of the requirement for the module IE2012, Sri Lanka Institute of Information Technology*

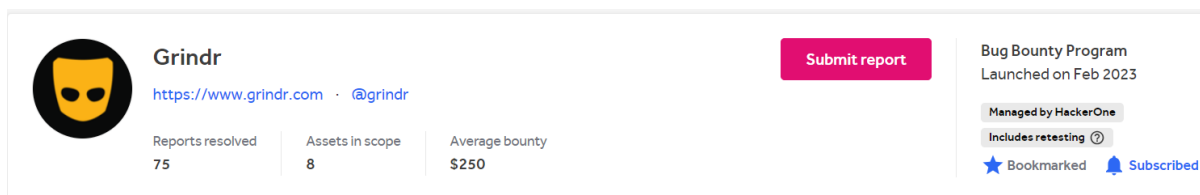

---

## 1 Abstract

This bug bounty report outlines the discovery and responsible disclosure of a security vulnerability identified within the [www.grindr.com](http://www.grindr.com) website. The vulnerability was found during a comprehensive security assessment conducted as part of the bug bounty program hosted on Hacker One platform.

## 2 BUG BOUNTY 01

### 2.1 Gathering and analyzing requirements

The screenshot shows the Grindr bug bounty program profile on HackerOne. It includes the Grindr logo, a 'Submit report' button, and program details. A table lists statistics: Reports resolved (75), Assets in scope (8), and Average bounty (\$250). It also notes the program is managed by HackerOne, includes retesting, and is bookmarked and subscribed to.

Reports resolved	Assets in scope	Average bounty
75	8	\$250
